Formal Definition

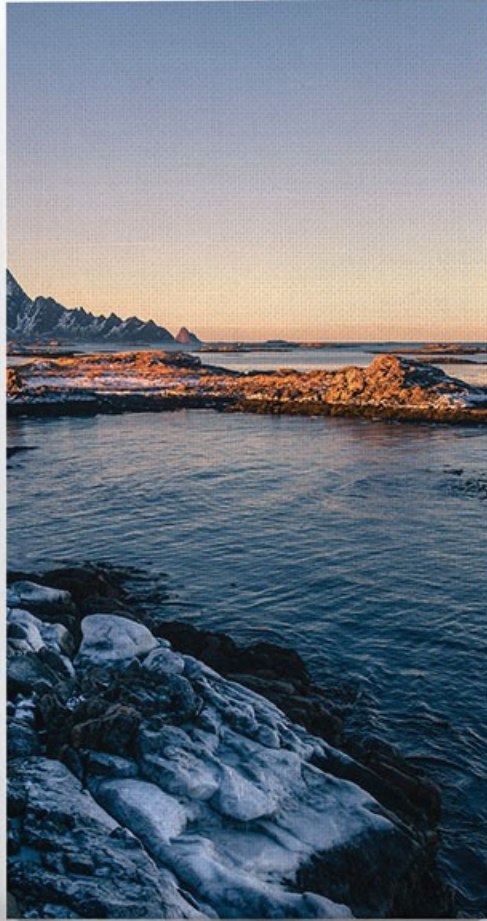

- a picture or relief carving on three panels, typically hinged together vertically and used as an altarpiece. eg "a triptych depicting the Crucifixion"
- a set of three associated artistic, literary, or musical works intended to be appreciated together. eg "a triptych on the theme of the holocaust"

Formal Definition

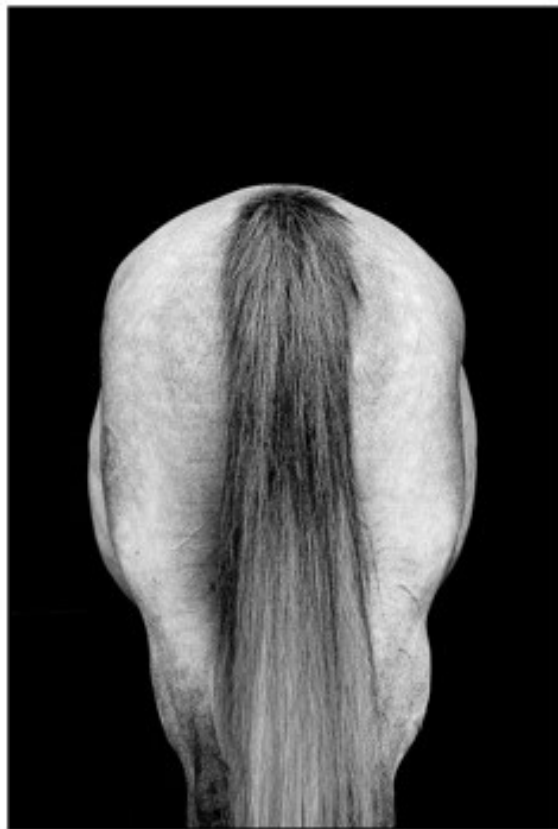

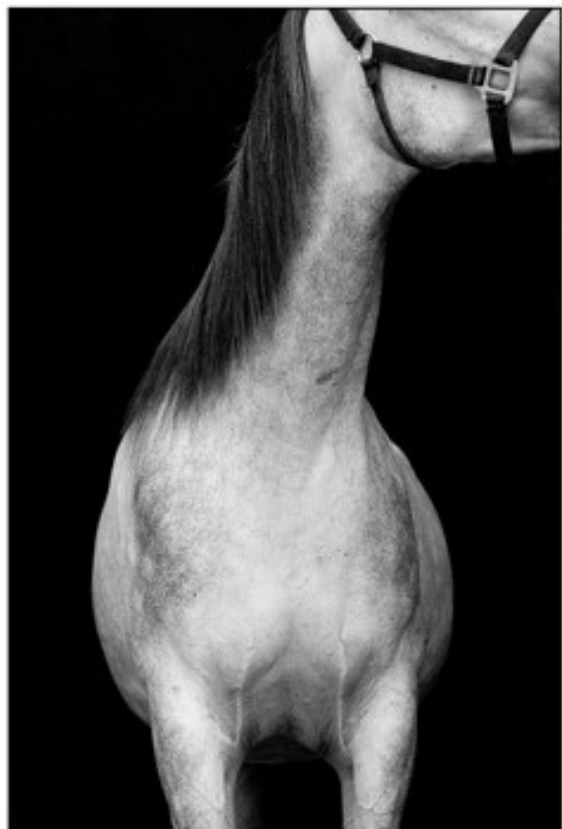

For Our Competition

- Arrange three images in one frame but with clear borders between each image.
- It may consist of three separate images that are variations of a specific theme, or it may consist of one large image split into three pieces.
- It may be the same image presented in three different ways e.g. full colour, monochrome, colour wash.
- Nature, weather, seasons or even people can provide many opportunities and ideas.
- Use the three images to tell the story. Is it time or movement? Coming or going? Changing emotions?
